Professional Summary

AI and Data Professional with 7+ years of experience building ML-powered products, pricing engines, and simulation platforms across retail and e-commerce domains. Strong expertise in Python, cloud platforms (AWS, GCP), and product ownership in cross-functional agile environments. Passionate about aligning AI solutions with business strategy to enable scalable real-world impact.

Experience

Jul 2025 – Dec 2025 **Career Break**
- Planned sabbatical including travel and personal development.

Sep 2022 – Jun 2025 **Senior Data Scientist**, *MediaMarktSaturn Technology GmbH*, Munich
- Led the creation of ML models for price and promotion simulation tool, improving revenue and margin forecasting accuracy by 15%.
- Implemented and deployed a ML microservice architecture for estimating price elasticity of demand, reducing feature delivery time by 20%.
- Developed a Generative AI chatbot using the Gemini LLM API to deliver real-time, context-aware query support.

Jun 2021 – Aug 2022 **Data Scientist**, *Instamotion Retail GmbH*, Munich
- Built and deployed real-time lead scoring systems using AWS SageMaker and Lambda, improving lead conversion by 20%.
- Developed scalable ETL and CI/CD pipelines, ensuring reliable data processing and automated retraining.
- Integrated model outputs into Salesforce and internal analytics dashboards to support business decisions.

Mar 2019 – May 2021 **Data Scientist**, *ProSiebenSat.1 Media SE*, Munich
- Created predictive models and dashboards to optimize ad inventory and pricing strategies.
- Unified data sources to strengthen governance and ensure consistent reporting.

Feb 2018 – Jan 2019 **Research Data Scientist (Thesis)**, *Volkswagen Data:Lab*, Munich
- Built clustering and prediction models on multivariate sensor and biomedical-style telemetry data.

Aug 2017 – Jan 2018 **Graduate Research Assistant**, *DZNE*, Magdeburg
- Conducted exploratory analysis on large biomedical datasets for neurodegenerative disease research.

Education

2016 – 2019 **M.Sc. Data and Knowledge Engineering**, *Otto von Guericke University*, Magdeburg, Germany

2009 – 2013 **B.E. Computer Science**, *SavitriBai Phule Pune University*, India

Technical Skills

Programming Languages: Python, R, SQL, Java
Machine Learning: Scikit-learn, NLP, LLMs, LangChain, Model Evaluation
Cloud Platforms: AWS (SageMaker, Lambda), Azure, GCP, Databricks
Data & BI Tools: Snowflake, Power BI, Tableau, QuickSight
Methods: Agile (Scrum, Kanban), CI/CD, Data Governance, GDPR
Languages: Native / Fluent (English), Intermediate: Deutsch (B2)
